The Southwest Suburban Denver Water and Sanitation District (SWSD) provides for the conveyance and treatment of wastewater from its service area through its contract with the Metro Wastewater Reclamation District (MWRD). All applicants for non-residential facilities must submit a set of plumbing plans to SWSD's Engineer for verification of oil/grease or oil/sand interceptor requirements, if any. All applicants shall submit this completed form to SWSD for approval along with payment of the MWRD and SWSD applicable fees, prior to a tap being made. All sewer taps must be inspected and approved by SWSD Engineer. Forty-eight (48) hours notice must be given when scheduling inspections. The District fee information provided on this application is subject to change and should be verified by the applicant prior to submitting for approval. This application is subject to SWSD's rules and regulations, including all present and future revisions thereto. Applicant hereby agrees that they have reviewed the District's rules and regulations and shall adhere to same.
